

# **The Effect of Drama on the Development of Child Personality**

**Prof. Dr. Ahmad Ali Kanaan**  
**Faculty of Education**  
**Damascus University**

## **Abstract**

This research aims at showing the importance of the child drama on activating child's imagination and developing his creative talents and abilities. It also aims at tracing drama history, its origins, and kinds in poetry, prose and drama fields. It also aims at showing the effect of school drama on the development of child personality and activating the processes of creation and technical creativity.

The research concluded with a set of suggestions, the most important are:

the necessity of enhancing the position of school drama and adopting it in our schools and educational curricula and implementing it to activate the educational aims and instill the original Arab values through drama texts which are suitable for children age level.
