

The Epistemological Reading of Heritage in Mohammad Abed Al – Jaberi's works

Dr. Mohammad Khalid At-Shiyab *

Abstract

In Mohammad Abed Al- Jaberi's point of view, heritage needs an epistemological reading, that requires digging in its depth to rebuild it, reform it, and reconnect with it.

Therefore, Jaberi's epistemological reading is based on his conviction that renewing the Arabic thinking and criticizing the Arabic mind can't be done only by the invitation to using new methods and explaining them, but also needs to be logically used in the study of our heritage and analyzed in a way that suits this usage-

Form this point, the new method that depends on examining the texts of heritage that was inspired from the postmodernists European method in reading the text and then going beyond that to reestablishing it was a great victory for the scientific spirit and a setting for the dialogue morals.

That's why Al- Jaberi's way of thinking regarding the epistemological method and the historical frame concept of modernism and postmodernism was influenced by the European methods.,
